Objet : Re: Pollinis - Call for support for the "2014 Commitment for the protection of pollinators and the future of crops"

Importance : Haute

Dear Julien,

I suppose you know about my efforts on the field of neonics, my proposal to ban it in the self initiative report on honeybee health, written questions to the Commission, conference with PAN Europe on pesticides I have organised in Brussels etc. You can hardly suppose I would not continue in these efforts if reelected :-). So I do not have any problem to support your call as I would fight against neonics use anyway (no offence).

Have good days

Pavel Poc
